PRESS RELEASE

Future is now! KessTech and REMUS become partners

In May 2021, MEC and REMUS will start a new future together! The two outstanding companies in the aftermarket sector will work closely together in the areas of development and sales in the future.

- Future products will be developed jointly to take full advantage of the expertise of both companies.
- From now on the brand KessTech will not only stand for electronically adjustable exhaust systems, but also for non-adjustable exhaust systems without valve control. It thus expands its repertoire immensely and gains a foothold in a completely new market.
- KessTech is now initially distributing adjustable and non-adjustable systems for Harley-Davidson and Indian Motorcycles motorcycles as well as BMW motorcycles. Other brands will follow very soon.
- The new exhaust systems can soon be found in the configurator at www.kesstech.de/en.

THERES-OBERTHERES and VOITSBERG – 21. May 2021

The managing directors and owners of MEC GmbH and REMUS Innovation GmbH announced today that a cooperation agreement has been signed to create a corporate partnership. The two international companies are thus pooling their core competencies in order to jointly develop and distribute outstanding products for the motorcycle world in the future.

Mario Altendorfer, CEO of MEC GmbH on the partnership: "With REMUS as a partner, we can only further grow! REMUS' technical know-how and good contacts as a global player in the exhaust segment and MEC's strengths in sales and our keen sense for trends complement each other perfectly." Stephan Zöchling, CEO of REMUS Innovation GmbH: "MEC is excellently positioned in the AM for Harley-Davidson and Indian to enable the biker's design dream of the perfect motorcycle. Together we start into a new future to grow further together with our sound, design and technical competence in the Harley-Davidson and Indian segment! The core competencies of both companies guarantee products of

outstanding quality and perfect fit, coupled with breathtaking adaptive sound and captivating design".

The partnership of the companies means increased relevance in the international markets of the brands. Currently, KessTech offers adjustable and non-adjustable systems for Harley-Davidson, Indian Motorcycles and BMW motorcycles, with other brands and products to follow.

The partnership between REMUS and KessTech starts operationally immediately.

About KessTech

For more than 30 years our world turns around the adjustable exhaust system. What once begun mechanically adjustable, today is a piece of High-Tech Made in Germany.

The company is today market leader for adjustable exhaust systems with an EU-type approval for motorcycles. With more than 55 highly motivated and specialized employees, the company produces these high-quality systems at its headquarter in Obertheres, Germany. With more than 50,000 adjustable exhaust systems sold - especially for Harley-Davidson motorcycles - KessTech has made an significant name for itself in the motorcycle scene and the product range is growing steadily. Since 2021, the brand's portfolio has also included non-adjustable exhaust systems.

About REMUS

REMUS Innovation GmbH was founded in 1990. Just five years later, it achieved a dynamic rise to become the world market leader among sports exhaust manufacturers. Today, REMUS employs around 1,000 people who produce exhaust systems for the world market on a total production area of over 40,000 square meters.

In addition to the almost complete tuner industry, numerous renowned premium vehicle manufacturers such as Mercedes AMG, Porsche, Bentley, McLaren, Aston Martin, Lamborghini, BMW, KTM or Ducati are also among the OEM customers of REMUS Innovation GmbH.
